SCORE LOW. PARTY MEMBERSHIP IN STALIN FACTORY;  
RENAME SOFIA MEDICAL SCHOOL

Most plants and factories in Vidin Okrug are successfully fulfilling the government plans. Exceptions are the Stalin porcelain factory, the Sila brickyard, and the hemp-processing mill. The Stalin factory has so far fulfilled only 70 percent of its plan for the first 6 months of the year.

The main reason for the failures is seen in low party membership; in the Stalin factory, only 25 percent of the workers belong to the party, and not a single new candidate has enrolled during the whole year. On the other hand, Communists guilty of violating party discipline have not been prosecuted. Furthermore, the party is not doing much to improve living conditions. In the brewery at Lom, workers are sleeping in the warehouses and the food is substandard.

NAME SCHOOL AFTER VULKO CHERVENKOV -- Sofia, Izgrev, 3 Oct 50

To commemorate vulko Chervenkov's 50th birthday, the Central Committee of the Bulgarian Communist Party and the Bulgarian government have decreed that the name of the Sofia Medical Academy shall be changed to Vulko Chervenkov Academy. A festive session was held at the academy on this occasion, during which the rector, Professor M. Markov, read a letter from the Prime Minister directed to the student and teaching body wishing them further success in their scientific and practical activities. In reply to the letter, Professor Markov read a statement reporting that at a meeting held 28 September 1950 the Academic Council, jointly with the Bulgarian Communist Party, the Trade Unions, and the Dimitrov Youth Association at the Academy, pledged to conduct all their scientific and practical work in accordance with the spirit and objectives of the Communist Party.
